HOW TO USE THE NONSILO TRANSLATOR: A STEP-BY-STEP GUIDE

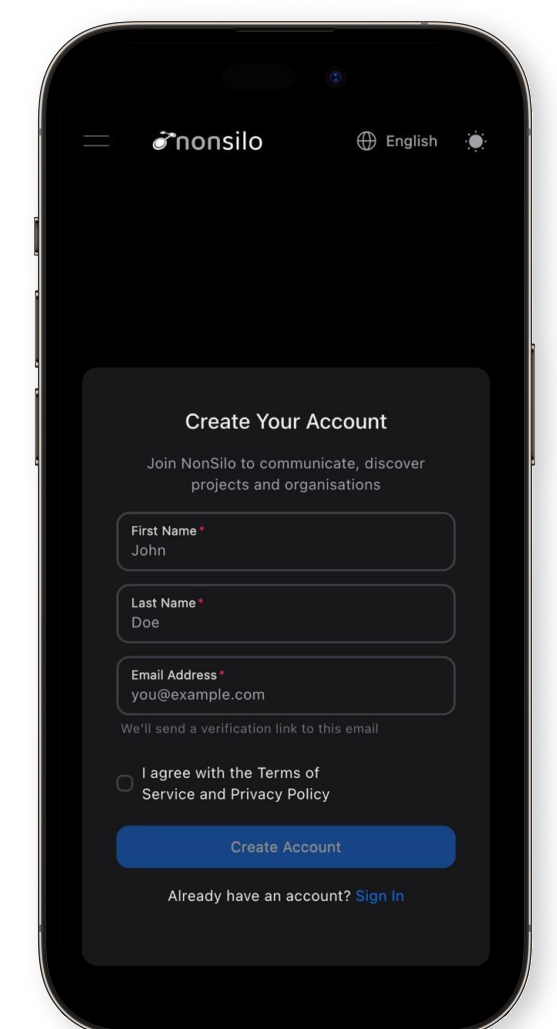

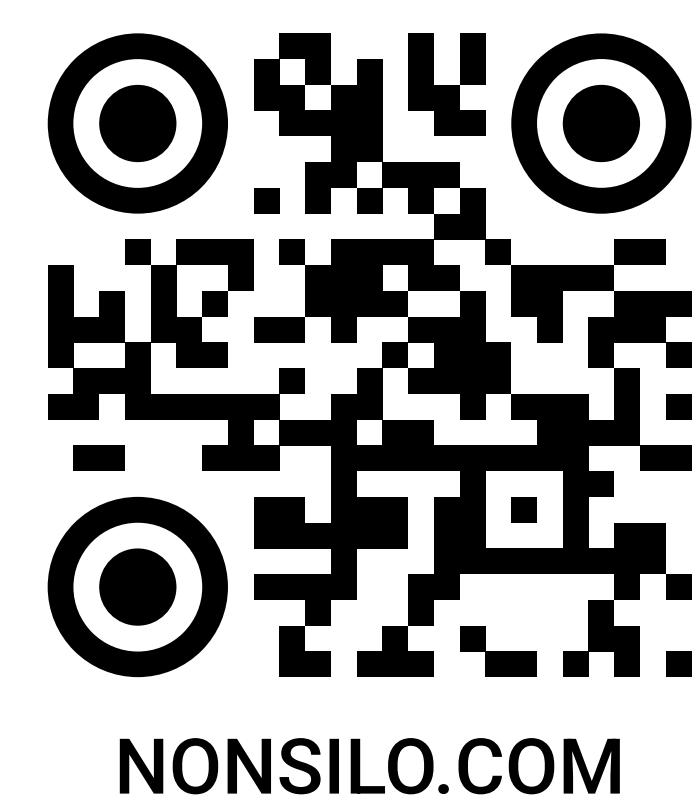

- THIS GUIDE WILL WALK YOU THROUGH SETTING UP YOUR ACCOUNT AND STARTING YOUR FIRST TRANSLATED CONVERSATION ON THE NONSILO PLATFORM.

01 ACCESS AND CREATE YOUR ACCOUNT

- First, you need to register.
- Open the Nonsilo web-based application by following the link nonsilo.com or scanning the QR code.

Important: Since this is a web-based tool, we recommend bookmarking (Favourites Add icons) the page in your browser for quick access later.

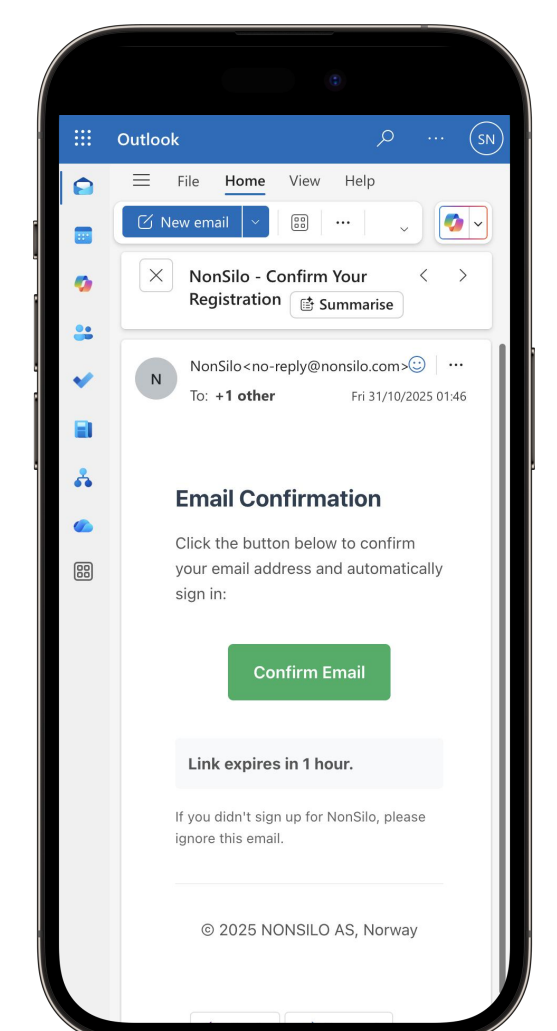

- Fill in your "First Name", "Last Name", and "Email Address."
- Agree to the "Terms of Service and Privacy Policy."
- Click the "Create Account" button.

REMEMBER. REGISTER ONCE, TALK FOREVER! :)

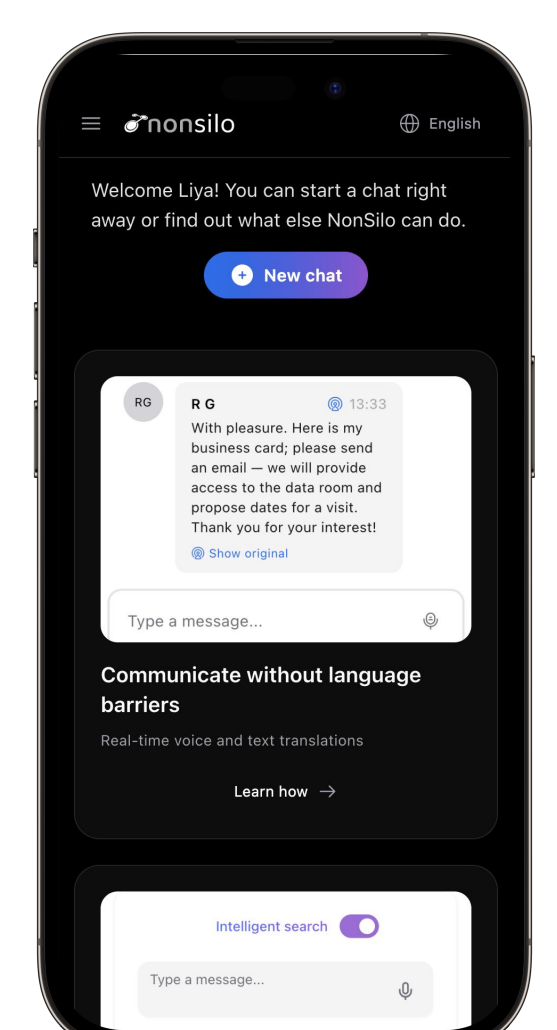

02 CONFIRM YOUR EMAIL

- Next, you must verify your email address.
- Check your inbox for an email titled "Email Confirmation."
- Open the email and click the "Confirm Email" button.
- Note that this link expires in 1 hour. You can repeat the process at any time.

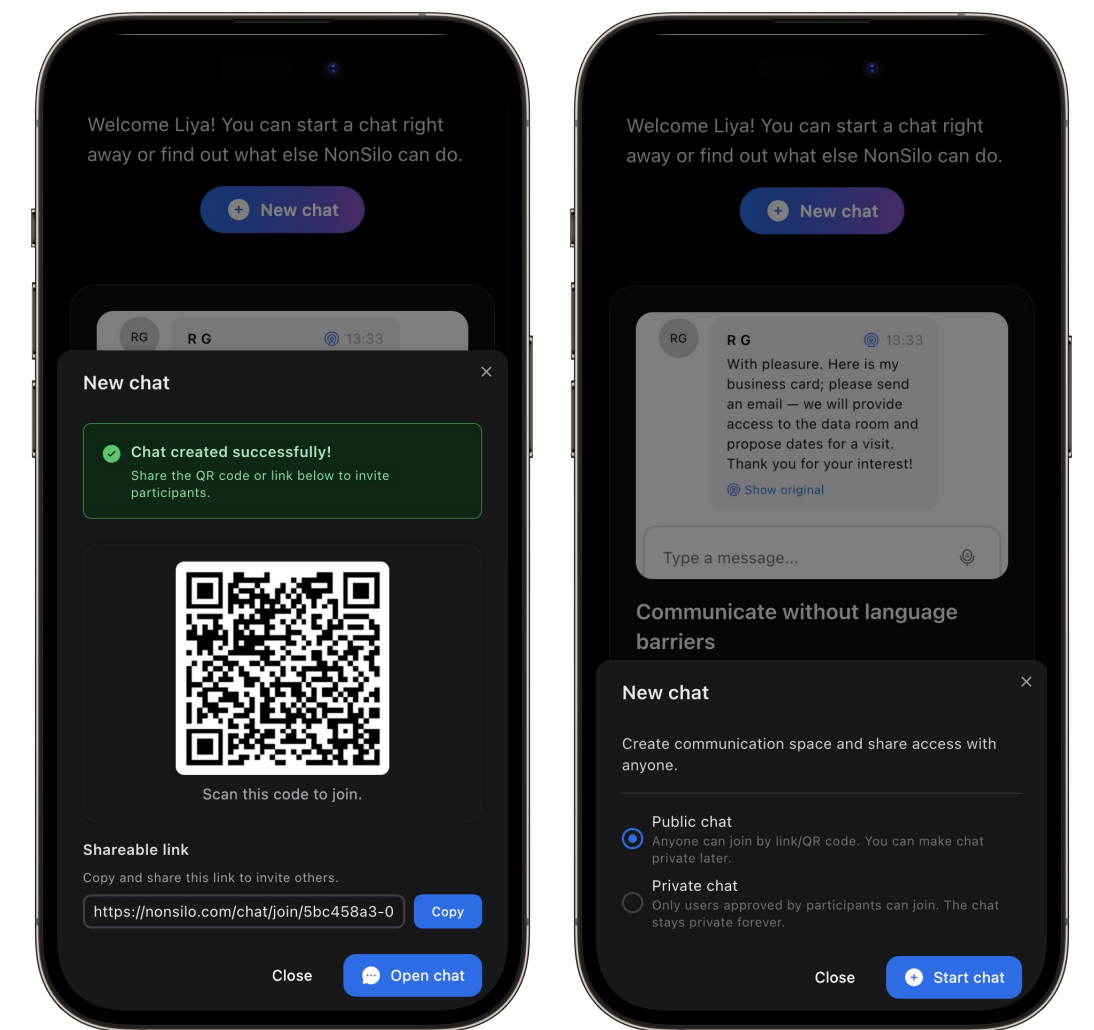

03 START A NEW CHAT

- Once your account is confirmed, you will be on the main welcome screen.
- From the dashboard, click the "+ New chat" button to begin.

04 CHOOSE YOUR CHAT TYPE

- You can create two types of chats.
- **Public chat:** Anyone can join using a shared link or QR code.
- **Private chat:** Only users approved by participants can join.
- Select your preferred option and click **"Start chat"**.

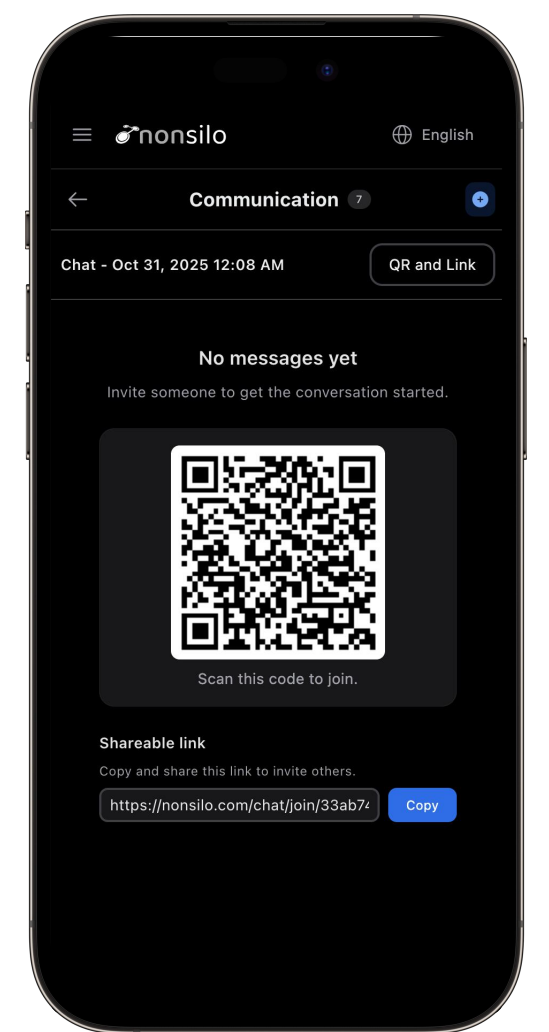

05 INVITE PARTICIPANTS

- Your chat room is now created. You must invite new users to join.

A success message will appear: "Chat created successfully!"

You can either:

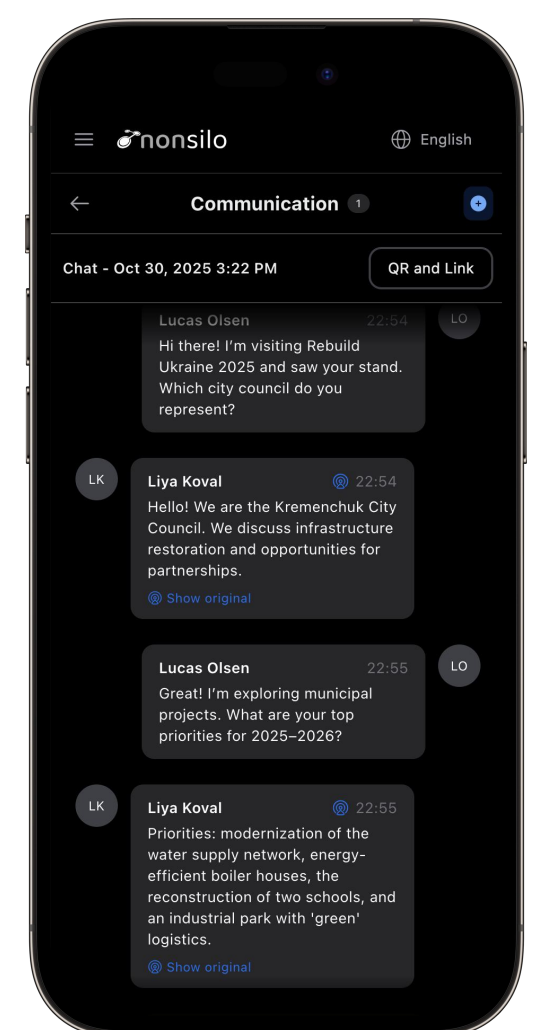

- Ask the person to scan the **QR code** on your screen.
- Click the **"Copy"** button to copy the "Shareable link" and send it to them.
- Click **"Open chat"** to enter the room.

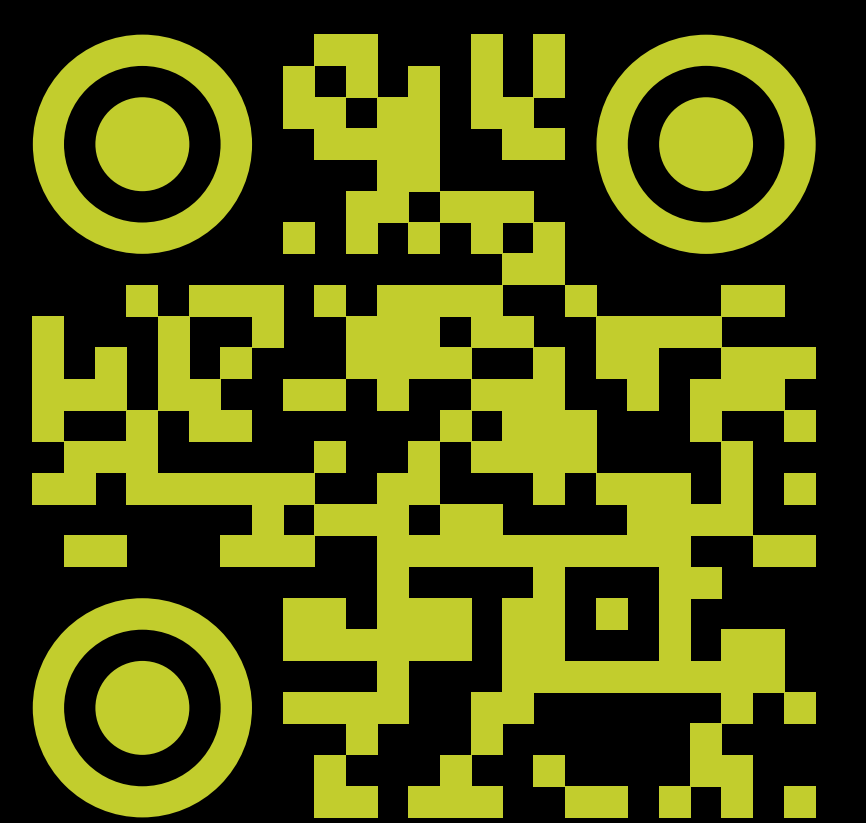

06 START YOUR TRANSLATED CONVERSATION

- This is where the magic happens. The translator is automatic and works in real-time.
- Type your message in your own language (e.g., English) in the "Type a message..." field at the bottom. You can also press the **microphone icon** to send a voice message. **Note:** The first time you do this, your browser (Chrome, Safari, etc.) will ask for permission to access your microphone. You must click **"Allow"** for the voice feature to work.
- When the other person (e.g., a Ukrainian partner) writes back in their language, their message will **automatically appear to you in your language** (English).
- You will see a small blue icon that says **"Show original"** below their translated message. You can click this at any time to see what they wrote in their original language.

You can start a new chat from any chat you are in, or from the page where all your active chats are listed.

THERE IS NO **"TRANSLATE"** BUTTON TO PRESS.
YOU SIMPLY TALK, AND NONSILO HANDLES
THE COMMUNICATION BARRIER FOR YOU.
